14th Annual Completing the Circle

The circle holds many meanings in cultures around the world, but is especially sacred in the Native American or Indigenous cultures.

*It represents the sun, moon, and the earth.
It marks the edge of the world and the four directions along
with the winds that travel there.*

*Most importantly it is a symbol for the circle or wheel of life
which is forever evolving and teaching us new lessons as we
travel each path.*

*To travel a path together, sharing our cultures, is one step
closer to Completing the Circle and healing the mind, body
and spirit for our future, our children.*
